

Woman's Health and Cancer Rights Act

The Woman's Health and Cancer Rights Act requires group health plans that provide coverage for mastectomy to provide coverage for certain reconstructive services. Those services include:

- Reconstruction of the breast upon which the mastectomy has been performed;
- Surgery/reconstruction of the other breast to produce a symmetrical appearance;
- Prostheses;
- Treatment for physical complications during all stages of mastectomy, including lymphedemas.

In addition, the plan may not:

- Interfere with a participant's rights under the plan in order to avoid these requirements;
- Offer inducements to the healthcare provider, or assess penalties against the provider, in an attempt to interfere with the requirements of the law.

However, the plan may apply deductibles, coinsurance, and copays consistent with other coverage provided by the plan.

Please note that our medical plans do provide coverage for these services.

This notice serves to fulfill the requirement of the law that written notice of the availability of this coverage be delivered to all plan participants upon enrollment and annually thereafter.
